SUMMARY

Final-year B.Tech Artificial Intelligence and Data Science student with hands-on experience in Full Stack Development and AI/ML through 3 internships and 3 production-deployed projects across civic-tech, EdTech, and AI-powered applications. Skilled in building scalable REST APIs, responsive web applications, and intelligent solutions using React, Node.js, Python, Flask, and TensorFlow. Strong foundation in Data Structures & Algorithms, Object-Oriented Programming, and problem-solving, with 320+ LeetCode problems solved.

EDUCATION

B.Tech, Artificial Intelligence and Data Science Graduating May 2027 : St. Joseph's Institute of Technology, Chennai, India — 8.21 CGPA
HSC – Higher Secondary Education Completed 2023 : Cholan Matriculation Higher Secondary School, Tamil Nadu, India — 84.33%

TECHNICAL SKILLS

Languages: Python, Java, SQL

Web Development: React.js, Redux Toolkit, Node.js, Express.js, Flask, REST APIs, JWT Authentication, Tailwind CSS, HTML, CSS3, JavaScript

Databases: MongoDB, SQLite, PostgreSQL

AI / ML: Machine Learning, Deep Learning, NLP, Computer Vision, TensorFlow, scikit-learn, Random Forest

Cloud & DevOps: Git, GitHub, CI/CD, Docker, Oracle Cloud Infrastructure (OCI), Vercel, Render

Data Tools: Pandas, NumPy, OpenCV

PROFESSIONAL EXPERIENCE

Prodigy Infotech, Remote: Software Development Intern Jul 2025 – Aug 2025

- Designed and built a reusable React component library adopted across 3+ product feature areas, reducing duplicate code and accelerating feature development
- Diagnosed and resolved 10+ production bugs through a peer-reviewed CI/CD pipeline, improving release reliability

Codetech IT Solutions, Remote: Web Development Intern Oct 2024 – Jan 2025

- Developed and shipped 3 responsive web pages integrated with live backend APIs for a client-facing production product

PROJECTS

CivicFlow – AI Civic Complaint Platform Jan 2026

Engineered a full-stack civic complaint platform (React.js, Flask, SQLite) for all 38 Tamil Nadu districts with a CNN-based image classifier that auto-categorizes and routes complaints, cutting manual triage effort by 90%.

- Designed a Random Forest model to predict resolution timelines and flag repair quotes above Rs.500 as potential overcharges

github.com/Arun597134/CivicflowAI

HireWise – AI Voice Mock Interviewer Dec 2024

Built an AI-driven mock interview simulator (Python, Mistral AI API) that parses resumes via PyMuPDF and generates role-specific interview questions.

- Built real-time speech-to-text/text-to-speech pipelines for a hands-free experience

github.com/AjayJ19/HireWise-AI

AI Online Assessment Platform Aug 2025

Developed a MERN-based exam platform with AI-generated MCQs, timed auto-submission, and role-based access for admins and students.

- Built a TensorFlow.js proctoring module detecting face absence and tab-switching, deployed to certify students in a college AI internship program

github.com/Arun597134/AI-Exam-portal

ACHIEVEMENTS

- Solved 320+ problems on LeetCode (arrays, strings, trees, graphs, DP)
- Selected as MyGov Campus Ambassador for Govt. of India's digital governance initiatives
- Earned 9+ certifications by 2nd year, incl. 2 Elite NPTEL certs from IIT Madras
- Mentored 2+ batches of 11th/12th students on AI/ML & Generative AI

CERTIFICATIONS

- Python for Data Science – NPTEL (Elite), 2025
- Database Management Systems – NPTEL (Elite), 2026
- Getting Started with Deep Learning – NVIDIA, 2026
- Introduction to Generative AI – Google Cloud, 2025
- OCI AI Foundations – Oracle University, 2025
- Front End Web Development – Infosys Springboard, 2025
- Basics of MongoDB – MongoDB University, 2025
